Paper Abby

Erase is free.

Higher is better.

Welcome

Abby is the paw. The flag is the last dot. Draw one line from her to the flag. The pencil is the piece. Erase a line that goes wrong and draw another. The page is not lost.

How to Play

The paw is free. Each new dot fills one circle. You start with twelve solid circles. Dashed circles are not yours until a treat inks three, after you pay for that dot. Twenty-four is the cap. None left: erase and redraw. The flag may take the last circle. That still counts.

Step only to a dot that shares a side. No diagonals, and no dot twice, so the line never crosses itself. The flag is the last dot.

Trees have no dot. A heavy edge is a cliff: go around. Waves need the vest. An arch needs the lamp. Pick it up, then step in. Circle a find the line enters, and mark it. A thing you only looked at stays blank.

Icons

Paw
Abby. You start here, and this dot is free.

Dot
One step, only to a dot that shares a side.

Cliff
A closed edge. Reach either dot another way.

Cave
An arch. Enter only after the lamp is checked.

Lamp L
Pick it up before the cave. It does not score.

Ball B
Three points when the line enters its dot.

Flag
The last dot. The line stops when it enters.

Tree
No dot. You cannot enter. Go around.

Water
Waves. Enter only after the vest is checked.

Vest V
Pick it up before the water. It does not score.

Stick S
One point when the line enters its dot.

Treat T
One point, plus three circles inked back.

How to Score

sticks + 3×balls + treats − steps

Steps are the filled circles, one for each new dot. A stick is one point. A tennis ball is three. A treat is one. A step is one point the other way. Two sticks, a ball, and a treat, in fourteen steps: 2 + 3 + 1 − 14 = −8.

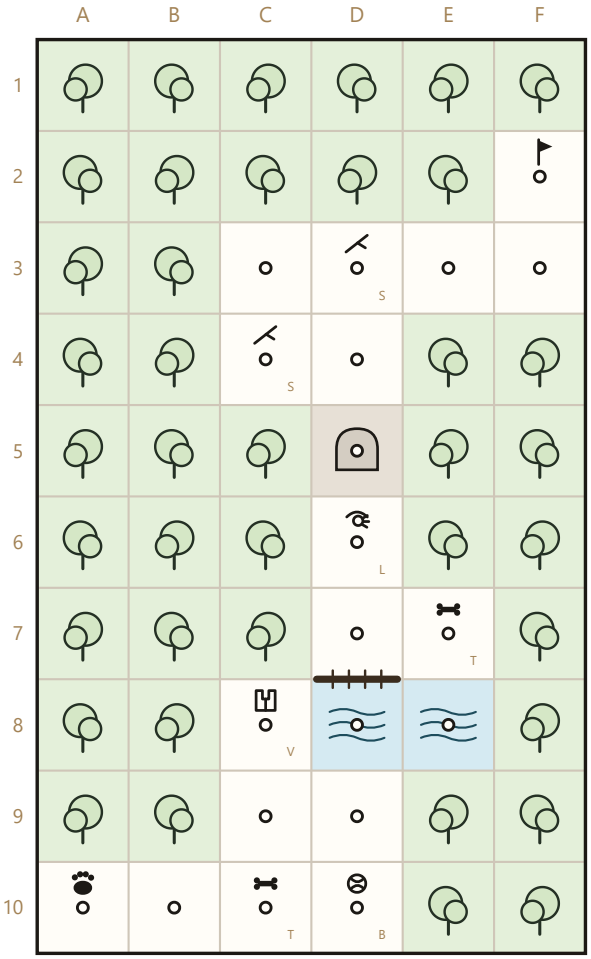

The vest and the lamp are not in that sum. A one-step detour for a stick ties the line you already had. A two-step detour for a stick loses. A ball pays for two extra steps. Higher is better, even below zero. Minus seven beats minus twelve. You win by touching the flag.

The score is how two lines compare, if you want to compare them.
